**We hope you enjoy** browsing our wine selection. I have created a considered international selection for you to choose from. Just seeing the dedication and passion that goes into these wines gives us an amazing feeling of pride in our wine list.

We feature over eighty wines from seventeen different countries and six continents, along with a selection of twenty wines by the glasses. I have tried to keep this as exciting as possible, matching the wines with the spirit of the seasons. There are big hitters in here but I have also included some smaller, lesser-known wines which are sure to impress.

Our main consideration when compiling this new list was keeping a high standard of quality while avoiding some of the hugely expensive costs now pervading the wine industry.

If you are interested in sampling a selection of our wines, we offer a six course **Tasting Menu** with a different glass of wine matched to five of the courses (the first, the amuse bouche, is served with a wee sample of one of our world famous single cask whiskies). Each food-wine match has been carefully selected by the sommelier to highlight the best of our wines and our chef's culinary skills. We endeavour to utilise the majority of our extensive list over the year so that returning customers may have the opportunity to sample as many different wines as possible.

Finally, if you have any questions please do not hesitate to ask our venue staff – all of which are trained to WSET standards.

## **Silvère** **The sommelier**

## Selection of Wine by the glass to enjoy with the Chefs meal
